Checkpoint Meeting Minutes

Group Identifier: | Team6

Date of Meeting: | 07 | 03 | 2017

Attendance Register:

Name	Present
Ryan Welch	X
Ikbal Ali	X
Dimash Danabek	X
Arran Wignakumar	
Isaac Davies	

If present mark with (X), approved absence (A), otherwise leave blank

Progress review of last week

Name	Task Description	Task Status
Ryan Welch	Working on Booking UI/logic	C
Ryan Welch	Adding daily view for calendar	O
Ryan Welch	Adding validation to edit booking view	O
Ikbal Ali	Add data validation to customer UIs	O
Ikbal Ali	Adding hourly rate to mechanics	O
Ikbal Ali	Adding bills to customer UI	O
Dimash Danabek	Working on search UI	O
Dimash Danabek	Adding vehicle logic to UI	C
Dimash Danabek	Add validation to vehicle UI	O
Arran Wignakumar		
Arran Wignakumar	Planning own module (UML Diagram)	X
Arran Wignakumar		
Isaac Davies	Working on Parts UI	X
Isaac Davies	Planning own module (UML diagram)	X
Isaac Davies		

Max three rows per group member. Task status: (C) completed (O) ongoing (X) no report

Plan for next week

Name	Task Description	Task Status
Ryan Welch	Creating New booking view	N
Ryan Welch	Adding daily view for calendar	O
Ryan Welch	Adding validation to edit booking view	O
Ikbal Ali	Add data validation to customer UIs	O
Ikbal Ali	Adding hourly rate to mechanics in user screen	O
Ikbal Ali	Displaying bills in customer UI	O
Dimash Danabek	Displaying next booking in vehicle UI	N
Dimash Danabek	Move add vehicle into new UI screen	N
Dimash Danabek	Add validation to vehicle UI	O
Arran Wignakumar		
Arran Wignakumar	Planning own module (UML Diagram)	X
Isaac Davies	Working on Parts UI	X
Isaac Davies	Planning own module (UML diagram)	X

Max three rows per group member. Task status: (N) new (O) ongoing (X) no report

Other Issues and Risks

We are adding the mechanics hourly rate option in the admin UI. There is still the search UI logic to do as a global search.

Most UIs are almost done, we are checking they meet the requirements and fixing any issues, data validation is a key thing we are working on to provide feedback to the user when filling in forms.

The booking UI is almost completed, the major functionality is there. There is still a missing daily view which is in progress, and the edit booking view is working but missing some fields. The new booking view is very similar to edit booking and easy to implement.

The customer UI is completed and we are making sure it meets requirements and adding in validation.

The vehicle UI's add vehicle form is being moved to a new UI page to fit the style of the other modules and to make the initial screen less cluttered. It now also displays the vehicles for a single customer if the user clicked from the customer module.
